

In 2018 the Lord says, this is a year of achievements and accomplishments, a time when you will see the material rewards of your efforts. **You shall begin to see money come to you from unexpected sources, and you will be presented with many opportunities, recognitions, and honors, sayeth The Lord of Hosts.**

God says that an opportunity will come your way this year for a new job or to start a new career in your life. This shall be a year of incredible material manifestation in your life sayeth the Lord. During this year your hopes, wishes and aspirations can be fulfilled.

I, the Lord, shall grace thee with more confidence. This year will be similar to a graduate course of study—you will be tested and evaluated. Money is the big lesson. Income and expense are often equal, but you may cash in on what is owed to you now. Your judgment is good, and your persistence is high. You will be asked to achieve more than you thought possible, and once you make a decision, go for it.

This is a good time for investments, groups, working with institutions, selling or buying property. **You'll attract abundance. This is a time for spiritual development and answers are available to you now.** Think of the future, not of the past or mistakes. Any setback now is temporary, saith God.

A year of reward, respect and recognition. This is your year of achievement, your year to make great strides in business, employment, promotions, monetary compensation, and/or the accumulation of possessions. It is your harvest time.

Many opportunities present themselves. **To gain your rewards, move forward in a businesslike manner and with sustained effort.** Your state of mind, mental capacity, education, experience, and self-confidence are all part of your success and financial advancement.

With your emotional life, let go of the old and start the new. Avoid being overbearing, arrogant and egotistical otherwise downfalls may occur, saith the Lord.
