

In 2018, I hear the Spirit of the Lord whisper in my ear saying, this is the year of change, a time that brings freedom from problems as well as opportunities to improve your life. **Expect some surprises, especially in May and September.**

It's a perfect time to travel and focus your mind on higher matters and ideals instead of being caught up in everyday life. If you start a new business there will be a lot of change surrounding it. I hear much love and birthing around thee.

I see you breaking free from the past and gaining strength. Don't be surprised if you move into a new residence. New connections will begin to enter your life. Try not to be pushy or impatient. Know that overconfidence can create needless error in decision making, saith God.

Your finances may fluctuate this year, but overall they will be good. Use the **"anointing"** of the Holy Spirit to your advantage by keeping your mind open to new ways of doing things and expanding projects you already have underway.

Avoid impulsive moves and don't burn your bridges. You have new energy and a new job will come your way. This year is also good for advertising, promotion, and enlarging what already exists in your life, saith the Lord of Blessings.

Expect a year of achievement, ambition, creative self-expression, change, variety, and good fortune through new contacts. This is a good year for buying or selling property. Legal matters, contracts, and workplace agreements are favoured and you may encounter **FAVOR** through creative or artistic activities.

A year of change, freedom and unpredictability. Sales, advertising, writing, interviews, meetings, seminars, lectures, debates, and conferences will keep you busy. **Watch the tendency to overindulge in eating and drinking, saith the Spirit of the Lord.**
