

**In 2018 the Lord says**, this is a year of opportunities and pleasures. The focus is on beauty, harmony, and forgiveness. You may end a relationship this year which may be the best time to do so sayeth the Holy Ghost.

God says that during this year you must use wisdom and not move into partnerships too quickly. **This shall be a good year for generating income and saving money sayeth the Lord but use caution concerning investments.**

Yea the Lord says, **2018 shall be a year of GREAT opportunities** for the job, ministry, home, skills, and even inner growth. And yet you may have to deal with some hidden fears or guilt concerning something from your past.

**Do not scatter yourself and be mindful as well as watchful in what you say.** I see writing and speaking shall also be a BLESSING, saith the Lord of Host.

God says to use wisdom and to sell items you no longer need and to **accumulate material wealth rather than begin any financial ventures.** The Lord further says that those you welcome into your life this year will help and enrich your life.

The Father says to avoid entering into major commitments or intense friendships in this year. **Don't start any major undertaking this year because you'll find yourself in a difficult struggle**, saith the Lord of Blessings.

**I hear the Spirit saying, FAVOR IS YOURS THIS YEAR!** New career or job opportunities will be offered to you and you'll have the ability to impress people in authority. I see SUCCESS in higher education, legal matters, and spiritual studies.

Use WISDOM in your finances and excessive spending.  
Scattering your energies can be a problem throughout 2018, so  
list your priorities and stay organized. **I see where you shall  
prosper** in real estate, interviews, meetings and negotiations are  
favoured and gains are indicated, saith the Lord of Host.

This is a year of creativity, motivation and inspiration!
