

In 2018 the Lord says, this is a year of tremendous importance because **I shall give you the wisdom and the power to control your destiny more so than at any other time of your life.** In this year, you are setting a course that will determine whether you will be happy or unhappy, successful or unsuccessful, over the next nine years sayeth the Lord of Host.

Whatever you plan this year will have longevity. It is a time during which you will rely upon your inner strength and courage, get into a closer relationship with the Holy Ghost.

God says that this is the year to plant the seeds for the projects that are most important to you, for they shall blossom and bear great fruit. **God says that this is the year that there will be major changes in your life.** This is the best year to become committed in a relationship sayeth the Lord.

I, your God, shall make great opportunities come your way to begin a business and start making major life changes. You will have the opportunity to move to another area and invest in buying a home if you desire, sayeth the Lord. For this shall be a year of advancement and progress because you have come out of a year of endings. Don't waste 2018, go after every opportunity you can.

The Lord says DO NOT undersell yourself, stand your ground, show a positive disposition and point of view, your ambitions should be pushed to the maximum. Don't allow others to talk you out of your plans.

Finances are profitable for 2018 however, avoid long-term financial contracts that put you in debt, be conservative with money, and follow your "prophetic senses" when it comes to

investments. Studies, writing, training, and travel will open you up to new experiences.

A year of new beginnings, seed-planting, and high energy. Emotionally, 2018 will be a year of positive decision and change. I also SEE partnership disappointments will start to disappear, saith the Lord of Blessings.
