

**In 2018 the Lord says,** that there may be some delays and disappointments concerning some things this year. In this year the key things you must have is **"patience and acceptance,"** sayeth the Lord of Host.

You may experience the loss of something important to you during this year in a relationship or in an opportunity that may slip out of your hands if you're not watchful, stay at peace and in close relationship with me so that I may direct your path sayeth the Holy Ghost.

Do not get anxious when the enemy tries to block you or things seem to drag. **Situations and people may try to slow you down, yet the Lord says, know that I AM on your side.**

God says that in this year you will finally make peace with someone whom you've been in disagreement with. **For this is the year for love and reconciliation in relationships in your life sayeth the Lord.**

2018 will be an important year for keeping the peace and **you may have to exercise a great deal of patience.** Cooperation with others is a must and yet you should stand up for your own rights, but not by obliterating someone else's values; compromise is your key to success.

This is a year to **examine your life's direction.** Father will open doors for advancement as well as new opportunities. I SEE you dealing with something around insurance, the home, or even a vehicle.

You may be sensitive this year. You begin to question some of your moves of previous year because there is a tendency now to

analyze and rethink. Don't worry, even if it seems as if nothing much is happening. This is just the inevitable slowing needed for growth.

A year of relationships, sensitivity, and cooperation. This year has a tendency for extremes. **"Be aware of it and don't let yourself be swayed by emotional depressions."** A very deep relationship with someone is possible, saith the Lord.
